

BIOGRAPHY

Curious and interested about music since her early age, Maxye played several years of piano and guitar. During two years, Maxye evolved in Berlin's club culture and build up a strong musical identity before coming back to Paris and contest for The Lab Festival, the biggest DJ competition in France.

Maxye captivated the public and juries thanks to her DJ skills and groove : her sets are eclectic and her selection is sharp and broad. She won the competition in which 450 DJs confronted each other and in the wake of this victory became the artistic director of a new Parisian club : Punk Paradise

Maxye is now a part of two DJ collectives : Dure Vie / Musart Concept Label and devotes herself entirely to her DJ and producer career.
